List of Tables	x-xiii
List of Figures	xiii-xiv
Abbreviations	xiv
Chapter - I Introduction	1-15
1.1 Consumption in Economics	1-3
1.2 Categories of consumption expenditure	4-5
1.3 Consumption in Indian context	5-6
1.4 Consumption in the context of Assam	6-7
1.5 Factors affecting pattern in consumption	7-9
1.6 Need and importance of the study	9-10
1.7 Objectives of the study	11
1.8 Hypotheses	11
1.9 Definition of the terms used	11-13
1.10 Chapterisation	13-14
References	14-15
Chapter - II Review of Related Literature	16-49
2.1 Introduction	16
Section-A	
2.2 Reviews on the available literature on consumption expenditure	16-33
Section-B	
2.3 Reviews on the theories of consumption	33-39

2.4	Development of consumption theories	39-44
2.5	Chapter Summary	44
	References	45-49
Chapter – III Methodology and Research Design		50-63
3.1	Introduction	50
3.2	Method of data collection	50
3.3	Study area and sampling design	51-61
3.3.1	Outline of sample villages of Jalah Block	52-54
3.3.2	Outline of sample villages of Gobordhana Block	54-55
3.3.3	Outline of sample villages of Tamulpur Block	55-57
3.3.4	Outline of sample villages of Goreswar Block	57-58
3.3.5	Outline of sample villages of Barama Block	58-59
3.3.6	Outline of sample villages of Baska Block	59-61
3.4	Method of data analysis	61-62
3.5	Delimitation of the study	62
	References	62-63
Chapter - IV Pattern of Consumption Expenditure: An Overview		64-106
4.1	Introduction	64-65
4.2	Consumption expenditure pattern on food and non-food among the 15 major states in India	65-69
4.3	Engel curve for food and non-food in rural and urban areas of the country	70-73
4.4	Changes in the average MPCE of major states in India	74-78
4.5	Percentage break-up of monthly per-capita consumption expenditure of broad groups of food and non-food items in Assam	79-81
4.6	Percentage composition of monthly per-capita consumption expenditure of broad groups of food	81-83

	and non-food items in India	
4.7	Components of Expenditure on food items	84-88
4.8	Components of expenditure on non -food items	88-91
4.9	Engel Ratio on food and non-food items of rural Assam	91-94
4.10	Engel Ratio on food and non-food items for urban Assam	94
4.11	Engel Ratio on food and non-food items for rural India	95
4.12	Engel Ratio on food and non-food items for urban India	95-103
4.13	Chapter Summary	104-105
	References	105-106
Chapter - V	Socio-economic Profile of Sample Households	107-158
5.1	Introduction	107-109
5.2	Sex-wise composition of sample household	109-110
5.3	Marital Status	110-111
5.4	Size of family or household	111-113
5.5	Distribution of persons as to their age	113-115
5.6	Block –wise educational status	115-119
5.7	Male-female occupational distribution	119-125
5.8	Distribution of occupation based on the level of education	125-131
5.9	Housing facilities	131-132
5.10	Lighting and cooking details	132-134
5.11	Sanitation facilities of sample households	134-135
5.12	Drinking water facility	135-136
5.13	Distribution of sample household as to the size of land holdings	136-138
5.14	Distribution of sample household as to their monthly income	139-140
5.15	Decile group analysis of household monthly income	141-142

5.17	Per-capita income of sample household	142-143
5.18	Inequality in the distribution of monthly income among the sample household	143-146
5.19	Household economic index and source of income	146-148
5.20	Household savings	148-149
5.21	Distribution of sample household on the basis of liabilities	149-150
5.22	Source of loans	150-152
5.23	Purpose of the loans	152-154
5.24	Chapter Summary	154-155
	References	156-158
Chapter - VI Expenditure Pattern of Sample Households		159-232
6.1	Introduction	159-160
6.2	Framework for Analysis	160-163
6.3	Consumption expenditure patterns of different income class	163-165
6.4	Level and composition of consumer expenditure	165-168
6.5	Analysis of consumer expenditure by types of sample households	168-181
6.6	Distribution of household according to monthly consumption expenditure range	182-183
6.7	Monthly consumption expenditure of the households as to the decile groups	183-184
6.8	Monthly per-capita consumption expenditure among the decile groups as to the items of consumption	184-189
6.9	Inequality and the Lorenz curve	190-193
6.10	Per-capita consumption expenditure analysis	193
6.11	Comparison of means among the different economic categories of households' monthly consumption expenditure	193-195
6.12	Monthly per-capita expenditure of food, non-food and semi-durables	195-197
6.13	Item-wise average monthly per-capita expenditure as per MPCE class	197-202

6.14	Estimation of consumption function	202-203
6.15	Analysis of the impact of income elasticity, household size elasticity, household debt elasticity and locational distance of the household for various items of expenditure	203-227
6.16	Chapter summary	227-230
	References	230-232
Chapter - VII	Findings, Recommendation and Conclusion	233-254
7.1	Introduction	233
7.2	Findings from socio-economic analysis of sample households	233-235
7.3	Findings of expenditure pattern of the sample households	235-236
7.4	Findings from consumption expenditure by types of sample households (as to the economic category)	236-245
7.5	Findings from monthly consumption expenditure range	245-246
7.6	Findings from income elasticity and household size elasticity for various items of expenditure	246-252
7.7	Recommendation	252-253
7.8	Conclusion	253
	References	254
	Bibliography	255-264
	Appendices	xv-xx

List of tables

Table No.	Title of the table	Page No.
Table 3.1	Block-wise description of the sample villages	52
Table 4.1(A)	Percentage breakup of monthly per-capita consumption expenditure on broad groups of food and non-food items in major states of rural India (at current prices)	66
Table 4.1(B)	Percentage breakup of monthly per-capita consumption expenditure on broad groups of food and non-food items in major states of urban India (at current prices)	68
Table 4.2(A)	Average MPCE (Rs) in rural India of 15 major states (at current prices)	74
Table 4.2(B)	Average MPCE (Rs) in urban India of 15 major states (at current prices)	76
Table 4.3(A)	Percentage composition of monthly per-capita consumption expenditure of broad groups of food and non-food items in rural Assam since 1994-95 to 2011-2012(at current prices)	79
Table 4.3(B)	Percentage composition of monthly per-capita consumer expenditure of broad groups of food and non-food items in urban Assam since 1994-95 to 2011-12(at current prices)	80
Table 4.4(A)	Percentage composition of monthly per-capita consumer expenditure of broad groups of food and non-food items in rural India since 1994-95 to 2011-12(at current prices)	82
Table 4.4(B)	Percentage composition of monthly per-capita consumer expenditure of broad groups of food and non-food items in urban India since 1994-95 to 2011-12(at current prices)	83
Table 4.5(A)	Average MPCE on different food and non-food items and Engel ratio in rural Assam since 1994-95 to 2011-2012(at current prices)	92
Table 4.5(B)	Average MPCE and the Engel Ratio of food and non-food items in urban Assam since 1994-95 to 2011-2012(at current prices)	93
Table 4.6(A)	Average MPCE and Engel ratio of food and non-food items in rural India since 1994-95 to 2011-12(at current prices)	98

Table 4.6(B)	Average MPCE and Engel ratio of food and non-food items in urban India since 1994-95 to 2011-12(at current prices)	99
Table 5.1	Salient features of sample households	108
Table 5.2	Distribution of household member according to sex	109
Table 5.3	Block-wise distribution of persons according to their marital status	110
Table 5.4	Distribution of households according to the size of the family	112
Table 5.5	Age-wise distribution	114
Table 5.6	Distribution of persons on the basis of educational standard and literacy of the sample household under various blocks of the study	117
Table 5.7(A)	Block-wise distribution of occupational status by sex	123
Table 5.7(B)	Block-wise distribution of occupational status by sex	124
Table 5.8	Occupational distribution of persons based on the level of education for the entire households of the of the study	129
Table-5.9	Details of housing facilities	132
Table 5.10	Lighting and cooking details of the households	133
Table 5.11	Details of sanitation facilities used by the households	135
Table 5.12	Drinking Water accessed by households	136
Table 5.13	Distribution of households as to the size of land holdings	137
Table 5.14	Frequency distribution of monthly income of sample households	139
Table 5.15	Decile group analysis of households' disposable income	141
Table 5.17	Per-capita income of sample households	142
Table 5.18	Calculation of income for drawing the Lorenz diagram	144
Table 5.19	Household economic index and source of income	147
Table 5.20	Savings of the sample households	148
Table 5.21	Liabilities of households	150

Table 5.23	Sources of loan for households	151
Table 5.24	Purpose of loans	153
Table 6.1	Monthly average income and consumption expenditure of different income class	165
Table 6.2	Item-wise annual household consumption expenditure on food	166
Table 6.3	Item-wise annual household consumption expenditure on non-food	167
Table 6.4	Item-wise annual household consumption expenditure on semi-durable goods	168
Table-6.5(A)	Monthly consumption expenditure on food as to the economic category of the sample households	180
Table 6.5(B)	Monthly consumption expenditure on non-food as to the economic category of the sample households	181
Table 6.5(C)	Monthly consumption expenditure on semi-durable goods as to economic category of sample households	182
Table 6.6	Distribution of monthly consumption expenditure of sample households	184
Table 6.7	Deciles group analysis of monthly consumption expenditure	185
Table 6.8(A)	Percentage of consumption expenditure of broad group of food items per household for a period of 30 days for each deciles group	187
Table-6.8(B)	Percentage of consumption of broad group non-food items per person for a period of 30 days for each deciles group	188
Table 6.8(C)	Percentage of consumption of broad group of semi-durables items per person for a period of 30 days for each decile group	189
Table 6.9	Calculation of consumption expenditure of sample households for drawing Lorenz curve	192
Table 6.10	Calculation of Gini co-efficient	193
Table-6.11	Monthly Per-capita consumption expenditure analysis by economic category (food, on-food and semi-durables)	194
6.12(A)	Comparison of means of APL and BPL household	195

	consumption expenditure on food	
6.12(B)	Comparison of means of APL and BPL household monthly consumption expenditure non-food	195
6.12(C)	Comparison of means of APL and BPL household monthly consumption expenditure on semi-durable	195
