

## LIST OF FIGURES

Figure No.	Caption	Page No.
1.	Distribution of the respondents on the basis of their age	72
2.	Distribution of the respondents on the basis of their educational qualification	73
3.	Distribution of the respondents on the basis of their cultivable land holding	77
4.	Classification of the respondents on the basis of their size of land holding	80
5.	Distribution of the respondents on the basis of their family size	81
6.	Women participating in A.H. developmental Programs	83
7.	Distribution of the respondents on the basis of their participation in training in livestock / animal husbandry	83
8.	Distribution of the respondents on the basis of their annual milk yield (liters)	86
9.	Distribution of the respondents on the basis of their meat production (kg)	87
10.	Distribution of the respondents on the basis of their annual egg production	89
11.	Distribution of the respondents on the basis of their income from livestock	93
12.	Distribution of the respondents on the basis of their mass media exposure	97
13.	Distribution of the respondents on the basis of their extension contact	99
14.	Distribution of the respondents on the basis of their participation in decision making in livestock management and marketing	100
15.	Distribution of the respondents on the basis of their knowledge level on improved livestock farming	102
16.	Women dairy farmer selling milk at farm complex	105
17.	Women beneficiaries for poultry farming under sponsored scheme	107
18.	Frequency distribution of the respondents on the basis of their improved livestock management practices	123
19.	Women livestock farmer taking care of farm animals	124

20.	Women in poultry farming	128
21.	Women in fodder cultivation under RKVY scheme	131
22.	Frequency distribution of the respondents on the basis of their level for participation in livestock related activities.	134
23.	Women in dairy farming activities	137
24.	Frequency distribution of the respondents on the basis of their level of perceived impact of livestock enterprises in livelihood sustainably	161
25.	Frequency distribution of the respondents on the basis of their level of perceived household food security through livestock products.	174
