

ACKNOWLEDGEMENT

I wish to express my profound sense of gratitude to my esteemed Guide Associate Professor Dr. Sandeep Das, Department of Biotechnology, Bodoland University for his valuable guidance, unstinted encouragement, constructive criticism and untiring help throughout the investigation and preparation of this thesis.

I express my sincere thanks to Dr. Kanad Das, Scientist E, BSI, Cryptogamy Unit, Indian Botanical garden, Kolkata for his Help.

I wish to record my hearty thanks to all the Teaching faculties, Bodoland University for providing necessary research atmosphere for completion of this work.

I would like to capitalize on the opportunity to acknowledge the help of Retired Principal Scientist Dr R.C. Upadhyay for his constant encouragement and appreciation especially in the later stage of my study.

I would like to offer my sincere thanks to V.I.T Vellore for their support in analysis part of the work.

I would like to thank Sandor Life Science for their support in analysis.

I would like to thank Hon'ble V.C. Prof. Laishram Ladu Singh for all the support and encouragement.

I utilize this opportunity to extend my sincere gratitude and gratefulness to Professor Hemanta Kr Baruah ex V.C. Bodoland University, Kokrajhar, Assam for encouragements.

Indeed the words at my command are just not sufficient to express my sincere thanks and deep sense of profound respect to Dr. Sameer Sikdhar, Professor of Plant pathology and Registrar, Bose Institute, Kolkata for esteemed and sagacious guidance seasoned with inspiring affection and constant encouragement throughout the course of my study.

I express my whole hearted thanks to Fellow Researchers for their unconditional and silent support when I needed them the most.

I must express my hearty gratitude to Dr Sonali Ghosh, Scientist E, C2C, UNESCO centre, Wild Life Institute of India, Dehradun, for encouragement and guidance throughout the study.

With deepest affection, I attempt to extend my thanks to all the supporting staff of this institution for without their help the work would never be completed.

I wish to express my heartfelt veneration to Professor Gaurav Gangupadhyay, Plant molecular biology Division, Bose Institute, Kolkata for his valuable suggestions.

I would also like to thank Dr. Chawngthanliana, Director of RIPANS, Mizoram, Mr Vinod Devraji, application scientist of Schrodinger and Dr M. Ravi Kumar, senior application scientist Schrodinger for their significant resourcefulness and guidance in molecular docking analysis.

I must express my hearty gratitude to Ministry of Minority Affairs, Government of India for providing me Fellowship to carry out my work.

I bow my head, and express my heart touching and warm feeling to my father Sri Jainour Ali, mother Mrs Jaida Bibi for their blessings, enthusiastic moral support and believing me at every step of my life.

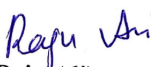

Lastly but not the least I would like to express my respect and heartfelt thanks to my dearest friend Late Ms Mamoni Rava for her support throughout my work for helping me and guiding me and believing in me, supporting me and encouraging me in every step of my work.

My deepest apologies extended to all those persons whose name could not be mentioned individually herewith.

The present endeavour couldn't have gleamed on the canvas of reality without the blessings of almighty who made it possible for me to attain this stage of academic achievement in life.
