

List of Tables

	Page No.	
1.1	Showing the diversity of fishes with special reference to their taxonomic distribution, vernacular name, habitat and conservation status	35-38
1.2	List of fish species selected for the present work	41
1.3	Measurement of length, breadth and weight of the fish species	45
1.4	Proximate composition of the selected fish species	46
1.5	Peak table for HPLC data of amino acid/mix std. 10ppm solution	59
1.6	Peak table for HPLC data of amino acid of <i>Barilius vagra</i>	59
1.7	Peak table for HPLC data of amino acid of <i>Neoeucirrhichthys maydelli</i>	60
1.8	Peak table for HPLC data of amino acid of <i>Chanda nama</i>	60
1.9	Peak table for HPLC data of amino acid of <i>Channa gachua</i>	61
1.10	Peak table for HPLC data of amino acid of <i>Rasbora daniconius</i>	61
1.11	Peak table for HPLC data of amino acid of <i>Channa punctatus</i>	62
1.12	Peak table for HPLC data of amino acid of <i>Trichogaster fasciata</i>	62
1.13	Peak table for HPLC data of amino acid of <i>Xenentodon cancila</i>	63
1.14	Peak table for HPLC data of amino acid of <i>Amblypharyngodon mola</i>	63
1.15	Peak table for HPLC data of amino acid of <i>Macrognathus pancalus</i>	64
2.1a	Amino acid profile of the selected fish species	65
2.1b	Amino acid profile of the selected fish species	65
2.2.1	Peak Table of Fatty acids of <i>Barilius vagra</i>	73
2.2.2	Peak Table of Fatty acids of <i>Neoeucirrhichthys maydelli</i>	73
2.2.3	Peak Table of Fatty acids of <i>Chanda nama</i>	74
2.2.4	Peak Table of Fatty acids of <i>Channa gachua</i>	74
2.2.5	Peak Table of Fatty acids of <i>Rasbora daniconius</i>	75
2.2.6	Peak Table of Fatty acids of <i>Channa punctatus</i>	75
2.2.7	Peak Table of Fatty acids of <i>Trichogaster fasciata</i>	76
2.2.8	Peak Table of Fatty acids of <i>Xenentodon cancila</i>	77
2.2.9	Peak Table of Fatty acids of <i>Amblypharyngodon mola</i>	77
2.2.10	Peak Table of Fatty acids of <i>Macrognathus pancalus</i>	78
2.3a	Fatty acid profile of the selected fish species	79
2.3b	Fatty acid profile of the selected fish species	79
2.3c	Fatty acid profile of the selected fish species	80
2.4	Measurement of absorbance of std Fe solution	82
2.5	Iron content in different species	83
2.6	Measurement of absorbance of std Zn solution	83
2.7	Zinc content in different species	84
2.8	Measurement of absorbance of std P solution	85
2.9	Phosphorous content in different species	85
2.10	Measurement of absorbance of std Ca solution	86
2.11	Calcium content in different species	87
2.12	Mineral content (Fe, Zn, P & ca) in different species	87
3.1	Vitamin A and Vitamin D content in different species	102
3.2	Physicochemical parameters of water samples	104
4.1	Market value of different fish species	111
4.2	Proximate composition of small fish species compared with some common large fish species	112
4.3	Mineral contents of small fish species compared with some common large fish species	114
