CHAPTER-I Introduction	1-13
1.1 Introduction	1
1.2 Structure of fish muscle	6
1.3 Principal components of fish muscle	8
1.4 Proximate composition of fish	9
1.5 Fatty acid profile	9
1.6 Amino acid profile	11
1.7 Mineral Profile	11
1.8 Fish diversity	12
1.9 Scope of studies	12
1.10 Aims and objectives of the research	13
CHAPTER-II Review of literature	14-21
2.1 Review of Literature	14
2.2 Literature review in International background	14
2.3 Literature review in National background	18
CHAPTER-III Materials and methods	22-33
3.1 The Study area	22
3.2 Survey on small fish species consumed by Bodo community	22
3.3 Description of the selected fish species	23
3.4 Study of Fish Diversity	25
3.5 Preparation of fish samples	26
3.6 Proximate composition	26
3.6.1 Moisture	26
3.6.2 Ash	26
3.6.3 Whole Protein	27
3.6.4 Crude Lipid	28
3.6.5 Carbohydrates	28
3.7 Amino acid analysis	29
3.8 Fatty acid analysis	29
3.8.1 Preparation of FAME	29
3.8.2 GC-MS analysis of the Methyl Esters of Lipids	30
3.9 Mineral analysis	30
3.9.1 Analysis of Fe, Zn & Ca	30
3.9.2 Analysis of Phosphorous	31
3.10 Vitamin analysis	32
3.11 Analysis of some water quality parameters	32
3.11.1 Collection, pre-treatment and preservation of samples	32
3.11.2 Physicochemical analysis	32
3.12 Statistical analysis	33

CHAPTER-IV	Results and discussion	34-115
4.1	Analysis of Fish diversity	34
4.2	Survey on fish species consumed by Bodo community	40
4.3	Scientific description of selected fishes	43
4.4	Proximate composition	46
4.5	Amino acid profile	53
4.6	Fatty acid profile	68
4.7	Mineral Profile	82
4.8	Vitamin profile	91
4.9	Physicochemical analysis of water bodies	104
4.9.1	Measurement of pH	108
4.9.2	Measurement of temperature	108
4.9.3	Measurement of TDS	108
4.9.4	Determination of DO	108
4.9.5	Determination of BOD	109
4.9.6	Determination of COD	109
4.9.7	Determination of total alkalinity	109
4.9.8	Determination of turbidity	109
4.9.9	Determination of salinity	110
4.9.10	Determination of viscosity	110
4.10	Comparison of small fish species with some popular large fish species	111
4.10.1	Comparison of market value	111
4.10.2	Comparison of proximate composition	112
4.10.3	Comparison of mineral contents	114
CHAPTER-V	Summary	116-118
	References	119-135
	Appendix	136-139
	List of Publications	140
