

ACKNOWLEDGEMENT

Towards the end of this journey, I earn this opportunity to convey my earnest gratitude to those who have contributed to the success of my thesis with their support, guidance and inspiration. At the initial I wish to thank God Almighty for his blessings throughout the journey of my Ph.D. work.

My sincere thanks are due to Prof. H. K. Baruah, Honourable Vice Chancellor, Dr. S. Brahma, Registrar and Dr. G.C. Wary, Academic Registrar, Bodoland University for providing me the facilities and environment to initiate and develop my research work.

I am perpetually indebted to my esteemed supervisor Dr. Jatin Sarma for his sincere guidance and kind encouragement throughout my course of work. His constant support and motivation has been immensely valuable.

With high esteem and complacency, I express my deep appreciation to Dr. Sandeep Das, the Head and other faculty members namely, Mrs. Sharmistha Brahma Kaur and Mrs. Jonali Ouary of the Department of Biotechnology for their words of wisdom and altruistic help.

I am indebted to the Department of Science and Technology (DST), Government of India and National Academy of Sciences India (NASI) for providing me financial assistance under KIRAN SoRF scheme during my initial period of research work. I am also thankful to the University Grants Commission (UGC) for selecting me as a fellow under Rajiv Gandhi National Fellowship for Schedule Tribe during the year 2014 - 15.

Acknowledgement is due to Zoological Survey of India (ZSI) Shillong and Kolkata for their help in taxonomic identification. The Sandor Proteomics laboratory of Centre for DNA Fingerprinting and Diagnostics (CDFD) Hyderabad, Guwahati Biotech Park, Guwahati; Fakhruddin Ali Ahmed Medical College and hospital, Barpeta and Department of Food Technology, Central Institute of Technology (CIT), Kokrajhar, Assam are sincerely acknowledged for helping me to carry out some part of my research work. I offer sincere thanks to Dr. Madhuraksha Cinnaboina of CDFD and Dr. Modan Gopal Barthakur of Guwahati Biotech Park, Mr. Anuck Isary and Mr. Kailash Barman of CIT for their guidance and perseverance during my stay and work at their laboratories. My heartfelt gratitude goes to the Department of Biotechnology (DBT), Government of India sponsored Bioinformatics Infrastructure Facility (BIF) at Bodoland University for allowing me to complete my statistical analysis part of the Thesis by utilising the facility.

My heartiest thanks to my fellow scholars who have always been kind enough to bear with me throughout my tenure of research. The research scholar and students shall always be fondly remembered for their kindness and help.

It is my immense pleasure to acknowledge Mr. Chandan Brahma, Mr. Paban Ray and Mr. Kanak Narzary of the Department for their help during need. Their help and support shall always be remembered.

The most demanding task of my research was sample collection. I offer my heartfelt gratitude to Petrus Mochahary, Monika Narzari, Pintu Borgayary, Michael Ganglary, Upen Brahma and Milahi Boro for assisting me during the survey.

Finally, I take this opportunity to express my deep sense of gratitude to my husband Mr. Hirakmoni Borgayary, my parents Mr. Silbanus Narzari and Mrs. Swmzri Narzari, my in laws Mr. Dhaneswar Borgayary and Mrs. Alasi Borgayary and other family members for their unconditional love and unstinted support. The love, support and encouragement of my sister Dolly Narzari sustained me throughout the period of my study. Overall, I can never thank my family enough for being there for me, without conditions all through.

Silistina Narzari
