Abstract xxiii

1 Introduction 1

1.1 Motivation 1
1.2 Dark energy 2
1.3 Higher dimensional cosmological model 3
1.4 Stabilization of extra dimensions 4
1.5 Spherically symmetric space-time 5
1.6 Cosmology 7
1.7 Theory of general relativity 9
1.8 Modified theory of gravity 12

1.8.1 Scale covariant theory . . . 14
1.8.2 $f(R,T)$ gravity theory . . . 15
1.8.3 Brans-Dicke theory . . . 17
1.8.4 Saez-Ballester theory . . . 18
1.8.5 Lyra manifold . . . 19
1.9 Literature review . . . 20
1.9.1 Literature review on related works . . . 20
1.9.2 Summary of key findings . . . 37
1.9.3 Implications and ideas for further research . . . 39

2 Research Methodology 41
2.1 Introduction . . . 41
2.2 Aim and objectives . . . 42
2.2.1 Aim . . . 42
2.2.2 Objectives . . . 42
2.3 Research design . . . 43
2.4 Data collection . . . 44
2.4.1 Inclusion and exclusion criteria . . . 45
2.5 Data analysis . . . 46
2.6 Formulation of problem and solutions . . . 47
2.7 Research tools and techniques . . . 47
2.8 Discussion of solutions . . . 47
2.8.1 Interpretation of solutions . . . 48
2.8.2 Validity and reliability of solutions . . . 48
2.9 Research conclusions . . . 48

3 Higher dimensional phantom dark energy model ending at a de-Sitter phase 50
3.1 Introduction . . . 50
3.2 Formulation of problems with solutions . . . 53
3.3 Discussion . . . 57
3.4 Conclusions . . . 63

4 Vacuum energy in Saez-Ballester theory and stabilization of extra dimensions 64
4.1 Introduction . . . 64
4.2 Formulation of problem and solutions . . . 67
4.3 Discussion . . . 71

4.4 Stabilization of extra dimensions 77
4.5 Conclusions 79

5 A higher dimensional cosmological model for the search of dark energy source 81
5.1 Introduction 81
5.2 Formulation of problem with solutions 84
5.3 Discussion 87
5.4 Conclusions 92

6 $f(R,T)$ gravity model behaving as a dark energy source 94
6.1 Introduction 94
6.2 The field equations of $f(R,T)$ gravity theory 97
6.3 Formulation of the problem and solutions 98
6.4 Discussions 100
6.5 Conclusions 105

7 Scale covariant theory as a dark energy model 106
7.1 Introduction 106
7.2 Problem formulation with solutions 109
7.3 Discussion 111
7.4 Conclusions 116

8 Dark energy on higher dimensional spherically symmetric Brans-Dicke universe 117
8.1 Introduction 117
8.2 Formulation of problem with solutions 121
8.3 Discussion 125
8.4 Conclusions 129

9 Conclusions 131
9.1 Summary 131
9.2 Summary of key findings 133
9.3 Ideas for further research 134

Bibliography 135

Published Papers 180
