ACKNOWLEDGEMENT

This thesis is the result of many pillars behind me, without whom I would not have completed my research. During the period of research, many personalities helped and encouraged me with their wisdom and good wishes.

Prof. Manjit Das, my supervisor was literally my Friend, Philosopher and Guide during this period. I am always grateful to him for his persuasion, inspiration and most importantly time which was spent with me. Without his constant pushing this thesis would not have been completed.

I must thank Honourable Vice Chancellor and Academic Registrar of Bodoland University for granting me time extension for submission of my Thesis.

I take this opportunity to thank all the *Kohars* and officials of Assam Cooperative Bell Metal Utensils Manufacturing Society Ltd. for providing me all the information regarding the study.

During the course of my work I have received numerous help from the Faculty Members of the Department of Economics, Bodoland University and take the opportunity to thank them.

Here I take the opportunity to thank Dr. Manoj Kumar Deka, HOD, Department of Computer Science and Technology, Bodoland University for his encouragement and support .

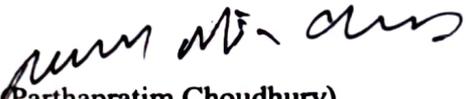

I also take this opportunity to thank Dr. Shreekant Sharma, Faculty Member, NIMSME, Hderabad and Dr. Zeeshan, Asst Professor, Shaheed Bhagat Singh Evening College, Delhi University, Dr Indrajyoti Roychowdhury, HOD, English, Madhab Choudhury College and Dr. Koncheng Burhagohain, HOD, Geography, Madhab Choudhury College for their support and help during the course of this research.

I would like to thank my colleagues in work place and friends who encouraged and supported me during this period.

Family is the constant in everyone's life. In this endeavour of mine my family always stood behind me like a rock supporting me. My late parents would be very pleased to see me in this position. I thank them from the bottom of my heart because I have achieved this, only with their blessings. My elder brother Anupam Choudhury also supported me during the course of my research. Special thanks go to my wife Bhabita Kakati and my children Triparna and Yugadreez because of their time which was sacrificed for my research and the constant persuasion and encouragement.

Last but not the least I would like to thank all the people who helped and encouraged me during the course of my research.
