

# Table of Contents

<b>Chapter</b>	<b>Description</b>	<b>Page</b>
	Certificate	i
	Declaration	ii
	Abstract	iii
	Acknowledgement	v
	List of tables	vii
	List of figures	viii
	List of appendix	ix
1.	Introduction	1-25
2.	Review of literature	26-92
	2.1 The Herb-herb amalgamation	27
	2.2 Advantage of polyherbal formulations	27
	2.3 Disadvantages of polyherbal formulation	28
	2.4 The need of standardization	29
	2.5 Polyherbal Formulations for Liver Diseases	29
	2.6 Plant used in polyherbal formulations for hepatoprotective activity	30
	2.7 Additional ingredients of PHFs other than plant	63
	2.8 Limitations of herbal drugs	80
	2.9 Conclusion	84
	2.10 Future prospects	85
3.	Materials and methods	93-112
	3.1. Survey	93
	3.2 Collection and authentication of plant samples	94
	3.3 Formulation of Polyherbal medicine (PHF) and naming it	94
	3.4 Extract preparation	94
	3.5 Determination of yield extract	95
	3.6 <i>In vitro</i> studies	95
	3.7 Microscopic study	99
	3.8 Determination of physical characteristics of powder	100
	3.9 Determination of Total Phenolic Content	101
	3.10 Determination of Total Flavonoid Content	101
	3.11 DPPH Radical Scavenging Activity	102
	3.12 Reducing Power Assay	102
	3.13 Hydrogen Peroxide Scavenging	103

<b>Chapter</b>	<b>Description</b>	<b>Page</b>
	3.14 Phytoconstituent profiling of different extracts by GC-MS/MS analysis	103
	3.15 <i>In vivo</i> studies	104
	3.15.1. Experimental approval	104
	3.15.2. Experimental animals' homogenization	104
	3.15.3 Acute toxicity test	105
	3.15.4 Hepatotoxicity study group	105
	3.15.5 Preparation of liver tissue samples	106
	3.15.6 Biochemical assays in blood	107
	3.15.7 Assessment of <i>in vivo</i> liver enzymatic assays	107
	3.15.8 Histopathological study	112
4.	Results and discussions	113-141
	4.1 Procurement of a polyherbal formulation through a survey from Bodoland Territorial Regions (BTR), Assam, India	113
	4.2 Yield Extract	113
	4.3 Preliminary physical analysis	113
	4.4 Microscopic study	115
	4.5 Preliminary phytochemical screening extract	115
	4.6 <i>In vitro</i> studies	118
	4.6.1 Determination of physical characteristics of powder	118
	4.6.2 Determination of heavy metal in <i>LivSwasthya</i>	118
	4.6.3 Determination of Total Phenolic Content and total flavonoid	119
	4.6.4 Determination of <i>in vitro</i> antioxidant potentials	119
	4.7 Phytoconstituent profiling of different extracts by GC-MS/MS analysis	121
	4.8 <i>In vivo</i> studies	122
	4.8.1 Acute toxicity test	122
	4.8.2 Enzymatic assays	122
	4.8.3 Biochemical assays	135
	4.8.4 Histopathological studies	138
5.	Conclusions	142-143
6.	Bibliography	144-204
7.	Appendix	A-E
