

ACKNOWLEDGEMENT

Undertaking this Ph.D. has been a truly life-changing experience for me, and it would not have been possible to do without the support and guidance that I received from many people. Foremost I wish to express my profound sense of gratitude to my esteemed guide Professor Sandeep Das (Ph.D.), Department of Biotechnology, Bodoland University for his valuable guidance, unstinted encouragement, constructive criticism, and untiring help throughout the investigation and preparation of this thesis. Without his guidance and constant feedback, this Ph.D. would not have been achievable.

I convey my sincere and humble gratitude to Honorable V.C. Prof. Laishram Ladu Singh for his support and encouragement.

I express my sincere thanks to the Department of Biotechnology for providing a research environment for this work. My heartfelt gratitude to Professor Jatin Sharma, Department of Biotechnology and all the faculties of Department of Biotechnology, Dr. Arvind Goyal (HoD), Department of Bamboo Technology, for their invaluable input throughout the journey of the research life. I would thank my colleagues and the faculty of the Botany Department, Dr Hemen Sharm (HoD) Dr. Rebeeca Daimari, Dr.Sanjib Barua, and Lab assistant Dwihung Brahma for their kind co-operation. Special thanks to the faculty of the Zoology Department, Prof. Hilloljyoti Singha, and Dr. Dulur Brahma, for their valuable suggestions. Thanks to Dr. Sanjay Basumutary (HoD), Dr. Hemaphrapham Saikia, Lab Assistant Pormeswar Basumutary, Department of Chemistry, for helping me to use the instrumental facilities for analytical work.

My appreciation goes to all the villagers and resource persons for giving me insight and invaluable information for the research. Thanks to my family members Mr. Raman Mushahary (Husband) and Mrs. Pratibha Brahma (sister), who accompanied with me during field visits. Special thanks to Indu and Buddha for their help in my fieldwork. I would like to thank Mr. Ajit Kr. Basumutary, Journalist, The Sentinel, for throwing his insightful opinion on the indigenous knowledge of Bodo Tribe.

I would like to thank Dr. Rupam Dutta, College of Veterinary Science, Khanapara, Dr. Diganta Narzary, Department of Botany, Gauhati University, and Dr.

Hemen Sharma, Department of Botany, Bodoland University for their suggestion on metagenomic analysis.

My sincere thanks to the Head of the office and Chief Scientist Dr. N Odoyo of Botanical Survey of India (BSI), Shillong, Meghalaya, and Dr. Dimos Khyntiam, Scientist –C, Zoological Survey of India (ZSI), Shillong, Meghalaya.

Special thanks to Dr. Ranjit Daimary, Scientist (BSI, Itanagar), and Dr. S. R. Talukdar, Scientist (BSI, Shillong) for their help at the nick of time.

I would like to thank the Sophisticated Analytical Instrument Facility (SAIF), NEHU, Shillong and MR Labs. Hyderabad, Telangana for providing the instrumentation facilities for biochemical analysis.

I would like to thank sequencing service provider AgriGenome Labs. Pvt. Ltd., Kochi, Kerala, and Pathcare Labs. Pvt. Ltd., Hyderabad, Telangana for providing suggestions along with their services.

My heartfelt appreciation also goes to Dr. Raju Ali for his invaluable help in bioinformatics work, and Dr. Jahnvi Brahma, Science College, Kokrajhar, Dr. Derhasat Narzary & Dr. Hwiyang Narzary for their help in thesis dissertation work. Thanks to my lab mates Chandan Brahma, Jobin Das, Arjina Prabin, research scholars of Zoology, Botany, and Biotechnology who helped me in numerous ways.

I am indebted to my mother, all my friends, my two children Himanshu and Bibekjyoti, and my entire family members for their patience and support, without whom I could not have completed this thesis on time.

Place: Kokrajhar

Date: 5/11/2022
