63/2 (SEM-2) BOT 201

## 2022

## **BOTANY**

(Theory paper)

Paper Code: BOT 201

## (Plant Taxonomy and Economic Botany)

Full Marks - 80

Time - Three hours

The figures in the margin indicate full marks for the questions.

1. Choose the correct answer of the following:

1×6=6

- (i) Which of the following taxonomic steps involving extensive herbarium collection and flora preparation?
  - (a) Introductory phase
  - (b) Systematic phase
  - (c) Biosystematic phase
  - (d) Holotaxonomic phase

- 2. Answer the following short questions: 2×5=10
  (a) What is an empirical approach in taxonomy?
  (b) State two major contributions made by A. P. de Candolle.
  - (c) Write the botanical source of Hemp.
  - (d) Who is author of the book 'Species Plantarum'? Mention the year of publication.
  - (e) State two diagonostic characters of family Poaceae.
- 3. Write short notes on any six from the following:  $5\times6=30$ 
  - (a) Principles of Priority and Limitations
  - (b) Objectives of Plant taxonomy
  - (c) Principles of ICN
  - (d) NTFP's
  - (e) Serology in taxonomy
  - (f) Gross morphological characters in Plant taxonomy
  - (g) Economically important plants of Magnoliaceae
  - (h) Salient features of Ranunculaceae.
- 14/63/2 (SEM-2) BOT 201 (3)

4. Answer any two of the following questions:

10×2=20

- (a) Define Typification. Discuss the different type methods you have studied. State the importance of typification. 2+6+2=10
- (b) Distinguished between Alpha and Omega taxonomy. Briefly discuss the different phases of plant taxonomy. 4+6=10
- (c) Write an explanatory notes on:  $5\times 2=10$ (i) Centre of origin
  - (ii) Importance of timber yielding plants.
- 5. Answer any one of the following questions:

14×1=14

- (a) Differentiate between artificial and natural system of plant classification. Briefly discuss an outline of Bentham and Hooker's system of classification. State its merit and demerit.

  4+6+4=14
  - ium? Flahorate the
- (b) What is digital herbarium? Elaborate the different steps involved in a preparation of herbarium. State four major herbaria in the world.

  2+8+4=14
