Title	Pages
Acknowledgement	iii-iv
Abstract	v-vii
List of Tables	vii-x
List of Figures	xi-xv
List of Appendices	xvi
CHAPTER I Introduction	
General Introduction	1-14
Research problem and research gap	14-15
Objectives	15
CHAPTER II Review of Literatures	
3.1 Medicinal plants review	16-20
3.2 Review of <i>in vitro</i> propagation of medicinal plants	20-24
3.3 Explant surface sterilization review	24-27
3.4 Review of somaclonal variation and detection in the <i>in vitro</i> propagated plants	27-29
3.5 Bioactive compounds identified in <i>in vitro</i> propagated plants using GC MS review	29-30
CHAPTER III Materials and Methods	
3.1 Area of the study	31
3.2 Sample collection and Identification	31-33
3.3 Explant collection and surface sterilization	33-34
3.4 Media preparation	34-35
3.5 Shoot induction, multiplication and Rooting	35-36
3.6 Hardening	36
3.7 DNA extraction	36-37
3.8 RAPD Assay	37-39
3.9 Antioxidant Assay	39
3.10 Quantitative HPLC analysis for detection of gallic acid and quercetin	40-41
3.11 Comparative GC-MS compound analysis in tissue cultured and wild extracts	41-42
CHAPTER IV Results	
4.1 Authentication and identification of selected plants	42

4.2	<i>Torenia crustacea</i>	42-62
4.3	<i>Lindernia pusilla</i>	63-79
	<i>Phlogacanthus thyriformis</i> Nees	80-97
	<i>Enydra fluctuans</i>	98- 114
	<i>Hygrophila auriculata</i>	115- 131
CHAPTER IV	Discussions	132- 141
CHAPTER V	Conclusion	142
CHAPTER VI	Summary	143- 147
CHAPTER VII	References	148- 166
APPENDIX-A	Nutrient compositions used in MS medium	167
APPENDIX-B	Chemicals Used	168
APPENDIX-C	Instruments used	169
APPENDIX-D	Abbreviations	170
APPENDIX-E	Research paper publications	171- 172
APPENDIX-F	Seminar presentations	173- 175
